

### Synonym

IFN-alpha 1,IFNA1,IFNalpha 1,IFN-alpha-1,LeIF D

#### Source

Mouse IFN-alpha 1, His Tag (IFA-M52H3) is expressed from human 293 cells (HEK293). It contains AA Cys 24 - Lys 189 (Accession # P01572-1). Predicted N-terminus: Cys 24

#### **Molecular Characterization**

IFNA1(Cys 24 - Lys 189) P01572-1

Poly-his

This protein carries a polyhistidine tag at the C-terminus.

The protein has a calculated MW of 21.0 kDa. The protein migrates as 24-27 kDa under reducing (R) condition (SDS-PAGE) due to glycosylation.

#### **Endotoxin**

Less than 1.0 EU per µg by the LAL method.

# **Purity**

>90% as determined by SDS-PAGE.

## **Formulation**

Lyophilized from  $0.22 \mu m$  filtered solution in PBS, pH7.4. Normally trehalose is added as protectant before lyophilization.

Contact us for customized product form or formulation.

### Reconstitution

Please see Certificate of Analysis for specific instructions.

For best performance, we strongly recommend you to follow the reconstitution protocol provided in the CoA.

#### **Storage**

For long term storage, the product should be stored at lyophilized state at -20°C or lower.

Please avoid repeated freeze-thaw cycles.

This product is stable after storage at:

- -20°C to -70°C for 12 months in lyophilized state;
- -70°C for 3 months under sterile conditions after reconstitution.

#### **SDS-PAGE**

Mouse IFNalpha 1, His Tag (Cat. No. IFA-M52H3) SDS-PAGE gel

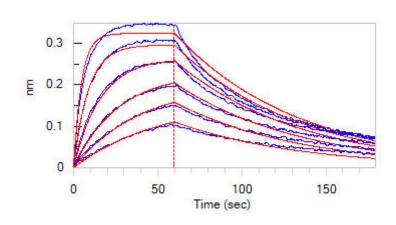

Mouse IFN-alpha 1, His Tag on SDS-PAGE under reducing (R) condition. The gel was stained overnight with Coomassie Blue. The purity of the protein is greater than 90%.

# **Bioactivity-BLI**

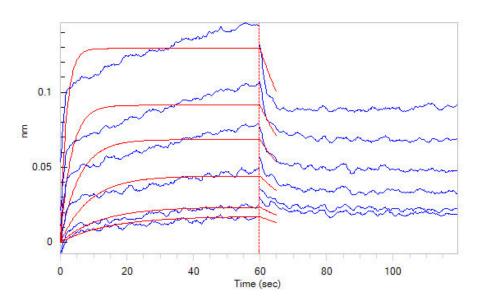

# Mouse IFN-alpha 1 Protein, His Tag

Catalog # IFA-M52H3

Loaded Mouse IFN-alpha 1, His Tag (Cat. No. IFA-M52H3) on HIS1K Biosensor, can bind Human IFNAR1, Fc Tag (Cat. No. IF1-H5253) with an affinity constant of 0.17  $\mu$ M as determined in BLI assay (ForteBio Octet Red96e) (Routinely tested).

Loaded Mouse IFN-alpha 1, His Tag (Cat. No. IFA-M52H3) on HIS1K Biosensor, can bind Human IFNAR2, Fc Tag (Cat. No. IF2-H5255) with an affinity constant of 1.0  $\mu$ M as determined in BLI assay (ForteBio Octet Red96e) (Routinely tested).

## **Background**

Interferon alpha-1 is also known as IFN-alpha-1/13, Interferon alpha-D, LeIF D and IFNA1, belongs to the alpha / beta interferon family. Interferons alpha-1 and alpha-13 have identical protein sequences. Produced by macrophages, IFN-alpha have antiviral activities. Interferon stimulates the production of two enzymes: a protein kinase and an oligoadenylate synthetase. IFN-alpha can either suppress or promote the development of autoimmune diabetes. It is likely that IFN-alpha plays a complex role in the etiology of type 1 diabetes.

### **Clinical and Translational Updates**
